

Some of the imagery in this download directory ([https://maps.pitkincounty.com/downloads/images/2025\\_County\\_BETA/](https://maps.pitkincounty.com/downloads/images/2025_County_BETA/)) is being corrected by the aerial acquisition vendor. The corrections are related to color balancing and other minor artifacts and thus the imagery is still usable for most practical applications. The imagery in the directory is identical to what is viewable on Pitkin County's public mapping platform ([https://maps.pitkincounty.com/gvh/?viewer=Public\\_Portal](https://maps.pitkincounty.com/gvh/?viewer=Public_Portal)). Once the corrections are made, this directory will be updated and the "BETA" suffix will be removed from the directory name. These corrections will be completed by the end of the year (2025) at the latest.
